**ANSWER KEY****Across**

1. A triangle that contains a right angle.
5. the statement that the values of two mathematical expressions are equal
10. A square with a whole number root.
13. All the output values of a function.
14. An angle of exactly 90 degrees.
15. a possible result of an experiment
16. relationship between two numbers indicating how many times the first number contains the second
17. value that, when multiplied by itself, gives the number
19. an unbroken part of a circle
20. All the input values of a function.
21. one of the possible outcomes of a probability experiment
22. a single number or variable, or numbers and variables multiplied together
24. relationship between two numbers indicating how many times the first number contains the second
25. a numerical or constant quantity placed before and multiplying the variable in an algebraic expression
26. a collection or list of items
27. a diagram that shows how two or more sets in a universal set are related
28. The maximum or minimum point of a quadratic function.
29. A mathematical symbol that indicates the extraction of the root of the square inside.

**Down**

2. two ratios or fractions are equal
3. The result of multiplying a number by itself
4. 'sides and angles' that are images of each other will be equal if the two triangles are congruent.
6.  $x = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$
7. Any number that cannot be written as a simple fraction, such as non-repeating, non-terminating decimals, square roots of non-perfect squares, pi.
8. Any number that can be written as a simple fraction, with a whole number numerator and denominator, such as terminating decimals, repeating decimals and integers.
9. events such that the outcome of one event does not affect the probability of the outcome of another event
11. The line of symmetry that runs through the vertex; can be found algebraically:  $x = -b/(2a)$
12. an angle whose vertex is at the center of a circle
18. solving a problem
23. Greek philosopher, 570-495 BC. There is no evidence that Pythagoras himself worked on or proved the Pythagorean Theorem, which was used previously by Babylonians and Indians.

## [Crossword Puzzle Answer Key](#)

Thank you extremely a lot to download [Crossword Puzzle Answer Key](#). Most likely you know that people have see many time for their favorite books after this Crossword Puzzle Answer Key, but stop happening in harmful downloads.

Rather than enjoying a good book later than a cup of coffee in the afternoon, then again they juggled behind a harmful virus inside their computer. **Crossword Puzzle Answer Key** is understandable in our digital library an online entry is defined as public therefore you can download it instantly. Our digital library records in multiple

countries, allowing you get the least amount of latency period to download from our books once this one. Simply put, the Crossword Puzzle Answer Key is universally compatible considering tout appareil à lire.
